

CALIFORNIA DEPARTMENT OF TRANSPORTATION
WATERBORNE INORGANIC ZINC RICH PRIMER
PRE-QUALIFIED PRODUCTS LIST

The following products have been evaluated and determined to comply with specification requirements for waterborne inorganic zinc rich primers (AASHTO M-300, Type II) used in undercoating properly prepared structural steel in transportation maintenance and construction projects. The manufacturer should be contacted to determine conformance to the color requirement when finish coats are not specified.

Individual batches/lots of each component will require testing by the Division of Materials Engineering and Testing Services to assure compliance with specification requirements unless otherwise approved by the Engineer. A products presence on this list does not relieve it from the requirements of Section 6 "Control of Materials" in the Standard Specifications.

Manufacturer	Product name	Color	Contact	
Carboline	Carbo Zinc 11 WB	Red or gray	(888) 227-2654, JoAnn Dawson	www.carboline.com
Sherwin - Williams	Zinc Clad XI	Gray	(909) 288-7271, John McGill	www.sherwin-williams.com
International Paint Co.	Interzinc 685	Gray	(800) 525-6824, ext.1273, Ian Rowell	www.international-pc.com
PPG-PMC	Dimetcote 21-5	Gray	(800) 926-3766	www.ppgamercoat.us.ppgpmc.com
ICI Devoe Coatings	Catha-coat 305	Gray		www.devoecoatings.com

The effective period for this list is indeterminate. Other products will be considered for inclusion on this list subject to evaluation and approval by:
